The screenshot shows the Node-RED interface. On the left, a "dashboard" tab is selected, showing a "button" node. In the center, a flow is visible with a "connected" node and a "button" node. On the right, the "Edit button node" panel is open, showing the "Properties" tab. The "Properties" tab includes fields for "Group", "Size", "Icon", "Label", "Tooltip", "Color", and "Background". The "When clicked, send:" section is checked, and the "Payload" is set to `{ "command": "motor off" }`. The "Deploy" button is visible in the top right corner.
